"Harry and his Team showed me what to do. I followed their plan on investments and now I am on my way to becoming financially set for life. It’s scary at first but once you understand the concept of their plan you put the fear behind you. Previously I had heard many horror stories. However it all went surprisingly smooth. It was my very first time getting my feet wet with a real estate backed investment. I didn’t even have much money for a down payment. In fact, I was living paycheck to paycheck. I first started looking into making money with real estate by reading a book by Donald Trump and another by Robert Kiyosaki. The next step was to find a network of professionals to help me. I found the radio show, Real Estate & Beyond, which Harry and Jeff host and I listened for about two months. Then I made the call and set the plan." - Allen Queral - Facilities Manager for Fortune 500 company
